

DEVELOP A PYTHON SCRIPT

Date	04-11-2022
Team ID	PNT2022TMID38177
Project Name	Project - IOT based safety gadget for childsafety monitoring and notification
Maximum Marks	4 Marks
Submitted By	S. Kamini E. Sathiyamoorthy

SCRIPT:

```
a=int(input())  
b=int(input())  
c=a+b  
print ("The sum is", c)
```

The screenshot displays the PyCharm IDE interface. The main editor window shows a Python script named `main.py` with the following code:

```
1 a=int(input())  
2 b=int(input())  
3 c=a+b  
4 print ("The sum is", c)
```

The script has been executed, and the output is visible in the Run console at the bottom. The console shows the command prompt path `C:\Users\HP\PycharmProjects\IBM\venv\Scripts\python.exe C:/Users/HP/PycharmProjects/IBM/main.py`, followed by the output `The sum is 12` and the message `Process finished with exit code 0`.
